

## DISCUSS

*We firmly believe that it's absolutely essential to listen very closely to what your hopes and aspirations are before we move forward with building your new home. We often discover important ingredients that can affect the overall project in the end. Our decades of experience can inspire you to provide greater input into your new home.*

## EXPLORE

*Once you have articulated your desires, we can then match these with some mutual innovation, the secret to making your home unique to you. We will discover whether you're indoors or outdoors person. Does entertainment matter? It's all very important.*

## PLAN

*Here's the point where you get to really appreciate the Yarrabank Homes thorough attention to detail. You may be surprised to learn a lot more about your lifestyle choices when we submit the preliminary plan which will be fine-tuned to you. The flow of the floor plan, the fittings and fixtures, and the environmental aspect. It all adds up to a deliberately inspired and designed residence uniquely yours to be called home.*
